1. The following table lists research orders issued in 1953 by the East German Zentralamt fuer Forschung und Technik (ZaFT) to various enterprises producing medical and pharmaceutical supplies. The table indicates the research funds allotted for each order in January 1953 and a change in the allotment made on 23 May 1953. It is of interest to note that the funds originally allotted to almost all of the orders were reduced in May 1953, with the exception of the order concerning corydalis, which was increased.
